Cast Plaques

MODEL F-9

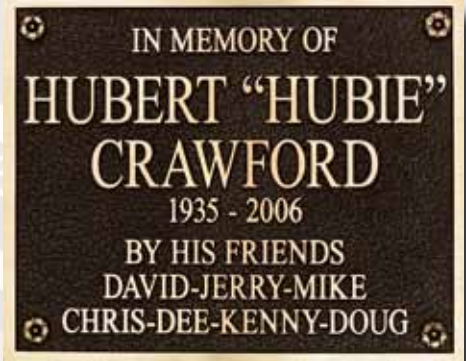

Brass with mirror polished Times Bold lettering and painted background.

A.R.K. Ramos plaques are second to none. We've been producing quality castings for over sixty years. Our cast plaques are available in aluminum, brass, bronze and white bronze. Etched plaques are available in aluminum, brass, bronze and stainless steel. We offer a full line of standard features for you to choose from as well as many custom options. The products you see on these pages are a small sample of what can be produced. We can work from your computer files or our art department can do all the design; you decide. Send us your specifications for a quote on your job.

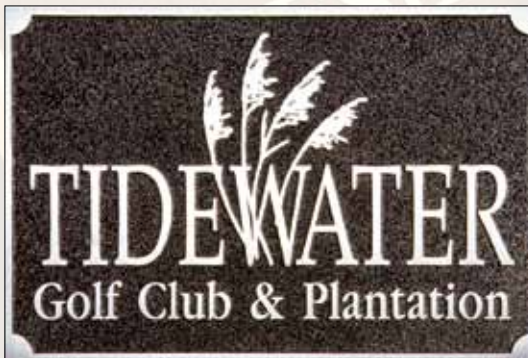

MODEL G-08

Cast bronze plate with Times Roman letters, single line border, pebble background, and BR-400 finish with rosette mounting.

MODEL B-08

Cast bronze logo tree cut to shape, with satin finish face and dark edges.

MODEL A-01

Aluminum with custom lettering and logo, raised 517 border and AL-200 finish.

MODEL H-08

Multi color painted aluminum cast plaque with raised details and textured background.

ADA Signage

MODEL H-94, E-94, F-94

ADA plates in aluminum, magnesium and bronze.

We offer a full line of ADA compliant signage for interior or exterior applications in aluminum, magnesium, brass and bronze. Many stock patterns are available or we can make custom signage to meet your particular specification. A wide variety of stock colors are available or we can match your custom colors upon request.

Cast Plaques

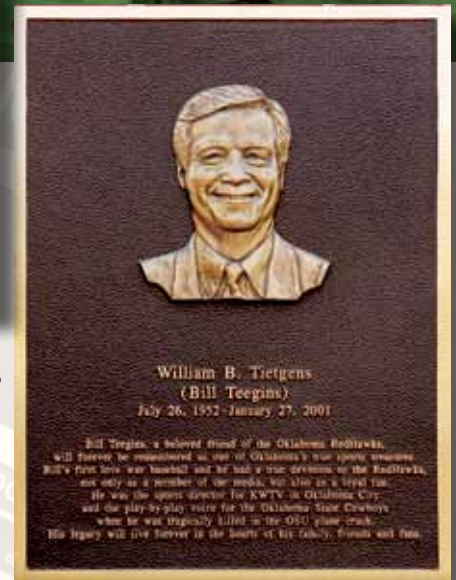

10 14 00/ARK
BuyLine 4925

MODEL N-05
Bronze with single line border, patina finished leatherette background and satin finished raised areas.

MODEL K-05
Bronze with sculptured bas relief portrait, Times Roman letter style, single line border and BR-400 finish.

MODEL C-07
Bronze with raised letters and border, BR-400 finish and raised bas relief portrait.

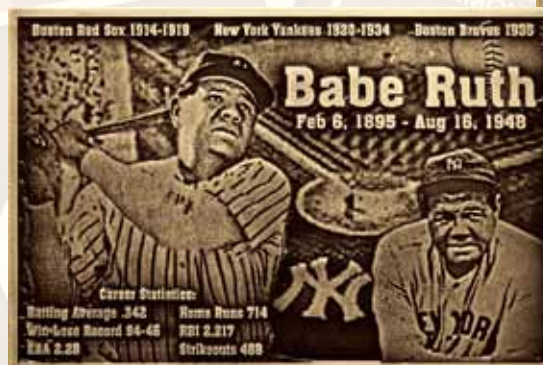

Introducing Perfect Impression™

Perfect Impression™ plaques feature the revolutionary new pattern process from A.R.K. Ramos that allows you to create stunning pictorials in cast metals at an economical cost.

This revolutionary new process allows the designer to create beautiful multi-dimensional works of art at a fraction of the cost of bas relief castings.

You supply the photos and we do everything else. Our artists can create beautiful collages or use a single photo to depict the story behind your project.

This new process gives you slightly lower relief than a true sculpted piece, but allows you much more relief than the conventional etched portrait.

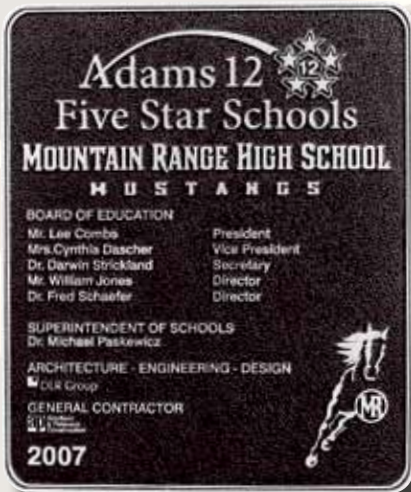

Cast Plaques

MODEL B-06
Bronze with double line border, raised and recessed text with BR-400 finish.

MODEL B-07
Aluminum with raised text and borders, 510 border and AL-200 finish.

MODEL C-06
Full round lost wax statues & busts are available. Contact our sales department for quotations.

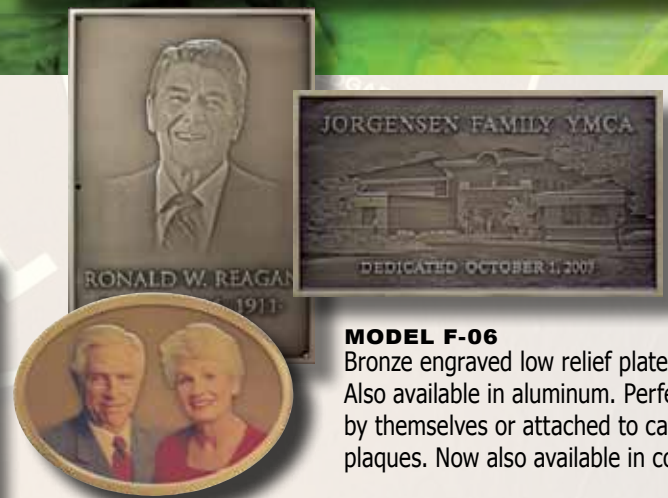

MODEL A-07
Aluminum with raised details, multi color paint and contour outline shape.

Etched & Engraved Plates

The design possibilities are endless with these unique graphic products. Available in a wide variety of finishes, metals, and sizes. Etched materials include aluminum, brass, bronze, magnesium, zinc, and stainless steel. All these products are available in a wide variety of thicknesses to help fit your needs. (Recommended for interior use only.)

MODEL A-97
Routed brass with recessed dark filled letters, bevel border and satin finish.

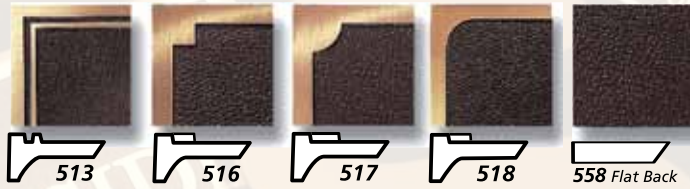

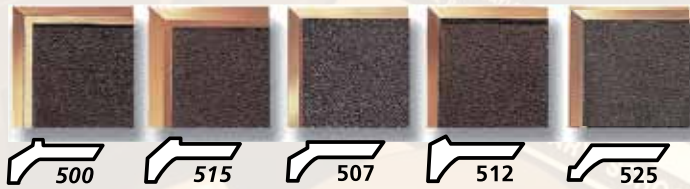

MODEL F-06
Bronze engraved low relief plates. Also available in aluminum. Perfect by themselves or attached to cast plaques. Now also available in color.

Letters

A.R.K. RAMOS letters are known through the industry as the very best. We take special pride in our finishing to produce letters that ensure an image of prestige and credibility for our customers. Cast letters are available in aluminum, brass, bronze and white bronze in a full range of standard finishes. Custom finishes are also available. We offer a full line of standard cast styles shown on the following pages. Our capabilities do not stop there. We can cast custom letters, logos and graphics from your artwork or from our extensive creative files. Contact your sales representative for answers to any questions you may have.

GARAMOND

Precision Cut Letters

Aluminum, brass, bronze or stainless steel precision cut metal graphics provide an unlimited variety of choices. Available in many different thicknesses, styles, and finishes; cut plate letters offer unmatched versatility. Ideal for small, ornate letter forms and graphics, where special patterns for casting are cost prohibitive. Cut metals are the perfect choice for mirror polished finishes.

MODEL A-06
Aluminum with multi color paint finish on custom graphics and borders.

MODEL R-05
Router cut plate logo with multi color finish.

Reverse Channel Letters

A.R.K. Ramos reverse channel letters are second to none. Available in aluminum, stainless steel, brass, and copper. These letters are the perfect choice where custom castings are cost prohibitive. Larger letters can be fitted with Soft-Glo®, our low voltage incandescent, or our LED halo lighting system. Stainless letters are available mirror polished on both face and edges or satin finished face and edges. Titanium (gold) finishes are also available in mirror or satin.

WE'RE GOING GREEN!

For over sixty years we have provided the very best in architectural signs. We feel it is our duty to both the planet and community to be a contributor to the green effort. To do our part, we will now offer all our cast metal products in either entirely or partially recycled alloys. Find out more by contacting one of our helpful sales representatives. We look forward to helping your next project GO GREEN!

A.R.K. RAMOS

SIGNAGE SYSTEMS

P.O. Box 26388 OKC, OK 73126 1-800-725-7266 WWW.ARKRAMOS.COM

Is going green making you see red?

All of our cast products are now manufactured using either entirely or partially recycled alloys. We look forward to helping your project go green! At A.R.K. Ramos we are LEED compliant; so any frustration over the LEED spec initiative is eliminated when you choose us as a preferred vendor. Up front, we can provide the paperwork you might require to meet your end customers' green demands.

The multi-level cast bronze seal shown above is a stunning example of the grand presence a bronze casting can offer. Finished in multiple shades of bronze oxidation and satin bronze this piece really shows its depth. This seal measures 80" in diameter and over 4" deep at the center section.

Manufactured for Casteel and Associates, Inc. of Dallas, Texas.

Distributing for **A.R.K. RAMOS**
Since 1990

A.R.K. was founded in 1946 by three men; Adams, Ramos and Karrant. The company operated primarily as an industrial casting foundry until the 1950's. In 1960, Max Ramos bought the company in whole and thus began what is known today as A.R.K. Ramos Architectural Signage Systems. Over the past sixty plus years A.R.K. Ramos has become one of the premier signage manufacturers in the United States. We're a family owned business specializing in cast plaques and letters. With an unmatched customer service attitude, A.R.K. Ramos is proud of its heritage and looks forward to many more years of serving its customers.
