Architectural Frames with Lenses

CLEAR MATTE ACRYLIC LENSES

Laser cut to snap in and out of anodized aluminum frames, round or square corners. Lenses can be have a digital print, tactile or grade 2 braille mounted to them while exposing a paper graphic.

- * Available in nine finishes: Polished Rose Gold, Polished Yellow Gold, Polished Silver, Arch Bronze, JRS Bronze, Matte Black, Satin Silver, Satin Rose Gold, and Satin Yellow Gold.
- * Frames have 1/8" wall thickness, 1/2" outside depth with an 1/8" masonite backer.
- * Lenses snap in and out with the aid of a suction cup placed in the center of the lens.
- * Dividers are used to make multi-lens compartments.
- * Special matte black dividers can be used to make compartments under a single lens.
- * Frames can be made to accommodate paper and 1/32", 1/16" or 1/8" sign material.

Architectural Plastic

Molded Plastic

ARCHITECTURAL PLASTIC FRAMES

- * Molded in one of 6 matte colors: Gray, Almond, White, Brown, Arch Brown & Black.
- * All frames have 1/2" outside depth, 1/8" thick walls, and mounting holes for attaching to walls.
- * Each frame is designed to accommodate all sign material from 1/6" to 1/8" thick, or it's own plastic injection molded plate.

DESK BARS

- * The desk bar is also available in White, Gray, Almond, Brown, Arch Brown, and Black.
- * Desk bars are designed as a simple architectural nameplate holder or counter sign.
- * They are 1" thick and have an outside dimension of 1-3/4" x 9-1/8" to accommodate our injection molded plate.

MOLDED PLATES FOR ARCH. FRAMES

- * Molded plates are 1/8" thick with a 1/16" reveal around the perimeter leaving a handsome border.
- * Each plate is designed to snap in and out of respective frames for changeable signs, or can be permanently mounted with 2 sided tape.
- * Plates are molded in the same six colors as the frames and then are stamped with a tough durable matte finish suitable for hot stamping, vinyl letters or silk screening.
- * For 2 ply engraving, 6 core colors and 14 surface colors can be combined for a quality contrasting engraved plate.

Decorative Bars

Three sizes of decorative bars create bold metallic borders for your signs. Formats of top and bottom or left side, right sides are available. One can use equal size bars or mix two different sizes. All three sizes can be made into a complete four-sided frame, and all formats can snap in a matte clear lens.

* Bars are available in five anodized finishes: Polished Yellow gold, Polished Rose Gold, Matte Black, Polished Silver and Satin Silver.

* All three sizes can be made into a complete four-sided frame.

* All formats accommodate a snap-in matte clear lens.

* All parts are anodized individually to give finished ends.

Designer Series

Plastic Frames

DESIGNER PLASTIC FRAMES

Designed for quality interior signage. Several unique features offered by this system will make designing & mounting interior signage simple.

- * Ten sizes in six colors: Pewter, White, Medium Grey, Almond, Brown & Black.
- * All sizes are multiples of 24" x 48" sheets, giving the maximum yield out of sign materials.
- * Completely supports 1/16" material so that multiple plates can be used as mini-directories or divided sign messages.
- * Plates can be mounted with adhesive-backed 3M DUAL LOCK™ or Sign Snap so they are tamper resistant but still removable with a suction cup.
- * Plates can be permanently mounted to inside of frames with adhesive or 2 sided transfer tape.
- * Keyhole mounting for permanent or removable frames.
- * Pin system that mounts into frame for hanging frames from fabric office partitions.
- * Base that snaps into a 2" x 8" and 2" x 10" frame for a handsome desk sign.
- * Double-sided frames with corridor bracket.
- * Corridor bracket mounts with two piece bracket for concealed screws.

Euro Sign System

The Euro Sign System with 20 standard sizes in 5 anodized colors is designed to make tamper resistant signs and directories. The clean lines of both the 3/8" round and 3/8" square extrusions make an attractive, functional, inexpensive solution to interior signage.

- * Five anodized finishes: Satin Silver, Polished Silver, Matte Black, Polished Yellow Gold and Polished Rose Gold.
- * Specially designed machine screws lock the entire group of sign assemblies in place. Simply remove the top screws and slide sign assemblies out for a quick change. Screw holes are tapped for repeated use.
- * Vertical dividers can be used to form multiple columns.
- * Custom sizes are available.
